

List of eligible expenditures for Measure – Farm diversification and business development		
<i>No.</i>	<i>Eligible expenditure</i>	<i>Description</i>
1.	Purchase of perennial trees and plants(excluding seeds, seedlings and mycelium), herbs and aromatic crops	Decorative perennial plants and trees, meliferous perennial plants and trees. Short rotation coppice and other fast growing trees species resulting with annual increment of no less than 15 m ³ per ha (for bio energy purposes). Timber trees species, decorative plants and decorative trees, herb species and aromatic crops. In terms of quality of propagation material Council Directive 2008/90/EC shall apply.
2.	Purchase of new agricultural mechanization and equipment for alternative agriculture production - machinery and equipment for land preparation, - planting, - irrigation and crop maintenance, - harvest and post-harvest equipment - control and protection equipment	Motocultivator, equipment for planting and grafting, plower tiller, plough, rotary tiller, rotary harrow, disk harrow, grain drill, broadcast seeder, seed/fertilizer drill, cultivator, planters, levelers, diggers, land plane, transplanter, manure spreader, fertiliser broadcaster, sprayer, duster, irrigation devices for drip irrigation, sub-irrigation, micro-sprayers and mist irrigation (water pumps, basins, water tanks/reservoirs, filters, equipment for water distribution network, equipment for ferti-irrigation unit, equipment for automatic dosage of water for irrigation) mower for grass crops, hay rake, hay baler, forage blower, harvesters, picker, digger, reaper-binder, thresher, grain cleaner, sorters and graders. Equipment and machinery for soil-less cultivation (hydroponic and aquaponics). Equipment for outdoor and indoor measurement of temperature, soil moisture and air humidity, soil sterilization and soil testing equipment. Protection nets and covers, birds' protection, lightning protection. Equipment for fish nursery and rearing. Equipment for beekeeping, honey production and other bee's products. Equipment for raising game animals. Equipment for raising birds. The above – mentioned equipment shall be limite to the activities provided by point 1 Alternative agricultural production, chapter 7.2 Priority sectors in the description of the measure

		in the IPARD Programme.
3.	<p>Purchase of new machinery and equipment for processing of food and beverages: (equipment for processing operations - from raw material to finished product)</p> <ul style="list-style-type: none"> - Fruits and vegetables including potatoes, mushrooms and leguminous crop products; - Cereal, milling and starch products; - Vegetable and animal oils and fats; - Grape must and wine; - Alcoholic products from vine and fruits and beer; - Milk and dairy products; - Meat and meat products - Pastry, pasta and bakery products - Tea and herb infusion - Spices, seasonings and herbs - fresh water fish, crustaceans and molluscs 	<p>Reception, collection and storing equipment. Equipment for preparatory treatment for sorting, curing, cleaning, washing, drying, disinfection, waxing, sorting, grading, culling of damaged crops, metal and glass detecting or other solid materials. Equipment for pre-cooling, cooling and refrigerating. Equipment for cutting, milling and other pre-processing preparation equipment. Equipment for filtration, de-aeration, fermentation, stabilization, separation, homogenization, pasteurization and sterilization. Reservoirs, tanks. Equipment for canning, drying, desiccation, freezing. Equipment for bottling, packing and labeling. Stunning, dripping, scalding and evisceration equipment, equipment for cutting and de-boning. Equipment for mixing, baking frying and sheeters. Equipment for packing and labelling of final products including storage.</p> <p>Laboratory equipment and apparatus for product analysis. Equipment for manipulation, loading and un-loading, forklifts, transport trailers, containers, pallets, cooling trailers, conveyor belt systems, weighting and measuring equipment. Equipment for quality monitoring, control and traceability systems of reception, storage and distribution. Waste treatment, valorisation, handling and storage equipment. CIP equipment (CIP-clean in place).</p>
4.	<p>Purchase of new machinery and equipment for processing of non-food products (equipment for processing operations - from raw material to finished product)</p>	<p>Machinery and equipment for preparation and storage of raw materials. Machinery and equipment for activities for logging. Equipment for processing of wood and wood products. Equipment for processing of minerals and their products. Equipment for processing of metals and their products. Equipment for processing of nonmetals. Equipment for preparation of feed for animals (including pets). Equipment for production of paper and paper products. Equipment for production of glass and glass products. Equipment for production of essential oils. Equipment for production of perfumes and toiletries. Equipment for production of botanical</p>

		<p>products. Equipment for production of natural and mineral fertilizers. Equipment for production of plant protection chemicals (insecticides, pesticides, herbicides) and other agrochemical products. Equipment for office, shop and home furniture. Equipment for production of textile and clothing. Production of textile products (other than clothing). Equipment for processing of fur, leather and production of fur and leather products. Equipment for production of sanitary and hygienic products. Equipment for production of rubber, plastic and their products. Equipment for production of shoes and bags. Equipment for production of accessories for men and women. Equipment for production of building and construction materials and products. Equipment for production of chemicals. Equipment for production of mechanical parts and components. Equipment for production of electronic parts and components.</p> <p>Equipment for packing and labelling of final products including storage.</p> <p>Laboratory equipment and apparatus for product analysis. Equipment for manipulation, loading and un-loading, forklifts, transport trailers, containers, pallets, cooling trailers, conveyor belt systems, weighting and measuring equipment. Equipment for quality monitoring, control and traceability systems of reception, storage and distribution. Waste treatment, valorisation, handling and storage equipment. CIP equipment (CIP-clean in place).</p>
5.	<p>Purchase of new machinery and equipment for craft activities. (equipment for processing operations - from raw material to finished product) - Only for activities registered in the “Book of rules on defining the activities which can be performed by craftsmen”</p>	<p>Reception, collection and storing equipment. Equipment for electro- machinery activities. Equipment for logging and wood processing. Equipment for production of textile. Equipment for production of food products. Equipment for production of metal and non-metal products. Equipment for production of paper. Equipment for production of handicrafts. Equipment for packing and labelling of final products including storage.</p>

List of eligible expenditures - LEE for Measure: Farm diversification and business development - final draft (v. 17092018) as accepted by the Commission on 20.12.2018 -

6.	<p>Purchase of machinery and equipment for provision of services in rural areas:</p> <ul style="list-style-type: none"> - repair and maintenance services - landscape services - pet care services - residential nursing care services (homes for the elderly, convalescent homes, etc.) - child day-care services - training and education centres for any profession, hobby or self-development purposes, sports and recreation, educational support services, IT centres - transport services - cinema, local broadcasting 	<p>Machinery, equipment and tools for repair and maintenance of non-agriculture machinery and motor vehicles (cars, trucks, buses, motorcycles, etc). Machinery, equipment and tools for repair and maintenance of personal and household goods: bicycles, clothing, sporting goods (except sporting guns) and camping equipment, books, musical instruments (except organs and historical musical instruments), furniture and home furnishings, toys and similar articles and of other personal and household goods. Equipment and tools for repair and maintenance for computers and peripheral equipment, communication equipment, consumer electronics and household appliances and home and garden equipment. Machinery, equipment and tools for landscape services (site clearing, design, installation, maintenance, hedge trimming etc). Equipment and tools for hair and cosmetic services. Equipment and tools used for pet care services. Equipment for residential nursing care services, child day-care services. Equipment for training and education centers, cinema and local broadcasting.</p>
7.	<p>Purchase of new machinery and equipment provision of services to agriculture production</p> <ul style="list-style-type: none"> - veterinary services - maintenance and repair of agriculture mechanisation, machinery and equipment - renting agriculture mechanisation, machinery and equipment. 	<p>Equipment for the veterinary health service, hospitalising animals, feeding, watering, quarantine and removal of carcasses and laboratory equipment and apparatus for product analysis Machinery, equipment and tools for repair and maintenance of non-agriculture machinery. Agricultural machinery and equipment for primary agriculture production. Tractors up to 100 kW for cooperatives only for renting purposes. Combine harvesters for renting purposes (max. class 6). Small (two-seat utility) vehicle adopted for veterinary service purposes.</p>
8.	<p>Purchase of new equipment for rural tourism purposes</p>	<p>Equipment for accommodation facilities /bungalows (furniture, appliances and other equipment for sanitary, administrative, common</p>

		space of the accommodation facilities, etc.). Equipment for catering and kitchen equipment including kitchen and catering utensils. Equipment for provision of recreational facilities-sports facilities (indoor and outdoor), Equipment and machinery for yard landscaping, garden decoration, garden pathways, fountains, outdoor lights, outdoor grill, garden glasshouse, sitting/resting shadows, watching towers, picnic tables and seats etc.
9.	Purchase of new equipment for production of energy from renewable resources	Equipment for production of energy through: <ul style="list-style-type: none"> - processing of plant products for production of biogas and/or biofuels, - solar energy, - windmills etc.
Eligible expenditure related to all priority sectors		
<i>No.</i>	<i>Eligible expenditure</i>	<i>Description</i>
10.	Building materials and elements for construction of new facilities or reconstruction and improvement of existing facilities (buildings and infrastructure to a full functional capacity) as well as greenhouses/glasshouses <ul style="list-style-type: none"> - for installation/housing of the eligible equipment - to achieve environmental standards - for provision of hygienic and sanitary requirements - to assure administrative space - auxiliary buildings (storage, garage, etc.) - selling points - for indoor and outdoor accommodation and recreational purposes - access, landscaping and fencing 	All materials used for construction of floors, walls and ceilings surfaces as well as any coatings and joint sealants that are used in production or service facilities eligible for support under the Measure: "Farm diversification and business development" as well as for the administrative space, retail/selling points, laboratory and sanitary arrangements and infrastructure related to the production or service activity. Coatings for wall, ceiling, floor, wall and ceiling panels, pipe covers, doors, windows, heating and ventilation system (air-conditioning and air-purification), drainage, sewage system, waste treatment and waste valorisation system, elements for water and electric power generation and supply (pump, stations, artesian boreholes), including energy saving practices and use of renewable energies. Posts and end-posts pillars made of wood, steel, concrete or other material, anchors for grounding the installation and tensioners, galvanized steel wire, supporting frames made of metal, plastic coverings. Construction material/components for provision of internal access roads and road network within establishment, landscaping and fencing of the area surrounding the establishment. Installation of electricity supply, water supply and
