### III. RESULTS OF THE IPARD PROGRAMME 2021-2027 MONITORING COMMITTEE MEETING

#### Opening of the meeting

The Chairperson of the Committee, Ms. Daniela Irotova Lazareva, opened the fourth meeting of the Committee by welcoming all attendees.

Mr. Vincent Cordonnier, Deputy Head of Unit G4 at DG AGRI, welcomed the members of the IPARD III MC Monitoring Committee. He thanked national authorities with the achieved results of the IPARD II Programme.

Compared to the countries of the Western Balkans, North Macedonia is so far the leader in the implementation of the IPARD II Programme and also the first country to start the implementation of the IPARD III Programme. Mr. Cordonnier indicated the need to ensure sustainable human resource policy in the IPARD structures as a guarantee for the successful implementation of the programme. He stressed the importance to speed-up the project contracting and payments along with introduction of new measures. That would provide even more and diversified opportunities for development of the rural areas and facilitate better spending of the IPARD funds, and would reduce the risk of de-commitment. Improvement of cooperation with/between Technical Bodies is also required in order to improve further the IPARD implementation. He concluded his opening words by wishing all the actors involved to continue the achievements and improve even more at the time of renewed impetus of the enlargement process.

**With reference to item 4 of the Agenda: “Information on the implementation of the decisions /conclusions adopted at the previous meeting of the IPARD III MC”.**

Regarding this item, the members of the Committee adopted the following conclusion:

**Conclusion No. 1: The IPARD III monitoring committee was informed on the progress made in implementing the decisions/conclusions of the third meeting of the IPARD III monitoring committee.**

**With reference to item 5 of the Agenda: “Information regarding the IPA monitoring committee”.**

**Sub item 5 (a) of the Agenda: “Follow-up, feedback from the IPA monitoring committee”.**

The representative of the National IPA Coordinator, Ms. Evgenija S. Kirkovski, informed about the meeting of the Sectoral Monitoring Committee for Competitiveness and Innovation, Agriculture and Rural Development and Energy which was held on 19<sup>th</sup> November 2024. She added that in addition to information from the IPA Monitoring Committee, in future she would also inform the members of the IPARD III MC on the Sectoral Monitoring Committee for Competitiveness and Innovation, Agriculture and Rural Development and Energy, which is of greater importance and interest for the IPARD III MC members.

Regarding this sub - item, the members of the Committee adopted the following conclusion:

**Conclusion No. 2: The IPARD III monitoring committee was informed regarding IPA monitoring committee.**

**With reference to item 6 of the Agenda: “Information on IPARD implementation in all countries”.**

The representative of DG AGRI, Mr. Zigo Rutkovskis, presented the results of the implementation of IPARD II and IPARD III in the Western Balkan countries noting that in future similar updates will be provided at each meeting of the IPARD Monitoring Committee. He praised the results achieved so far in the implementation of IPARD II and emphasized that North Macedonia is the first country, which adopted all the necessary agreements, in order to start the implementation of the IPARD III

Programme. As further steps, which have to be taken to improve the implementation of the Programme, he emphasized reducing the time needed on contracting and payments to applicants, as well as improving cooperation with/between Technical Bodies. Mr. Rutkovskis invited the Macedonian authorities to strengthen human capacities and retain existing staff, as well as to accelerate the accreditation process and implementation of new measures.

Regarding this item, the members of the Committee adopted the following conclusion:

**Conclusion No. 3: The IPARD III monitoring committee was informed regarding IPARD implementation in all countries.**

**With reference to item 7 of the Agenda: “State of play of implementation of the IPARD Programme 2014-2020 and 2021-2027”.**

**Sub item 7 (a) of the Agenda: “General information about programme/measure implementation on the basis of monitoring indicators, tables”.**

Regarding this sub-item, Mr. Viktor Mladenovski presented in details the results of the implementation of the programme by public calls, measures, types of sectors in the measures and types of investments. He also referred to the geographical aspect of the implementation of the programme.

Regarding the question by the representative of MES, Ms. Robertina Brajanoska, which referred to the small number of approved applications in measure 7, especially for the tourist accommodation and catering services sector, the representative of the IPARD Agency, Mr. Vangel Nanevski, mentioned the following as the main reasons: incompleteness of the applications, non-fulfillment certain specific criteria foreseen for investments in accommodation capacities, untimely submission of a construction permit, and fulfillment of environmental protection standards which are mostly equal to EU standards. Having in mind the presented (difference between received and contracted applications especially in priority area - support to rural tourism), Ms. Brajanoska raised the issue of regional analysis of implementation of measure 7 and including an analysis of IPARD implementation in protected areas. Mr. Mladenovski pointed to the upcoming ex-post evaluation report, where issues like this are analyzed. The report should also provide analysis of the reasons for rejections of applications per measure, priority area, type of investment and region and will serve as a tool for improvement of implementation of IPARD 3 Programme.

Regarding the appropriate regional distribution of IPARD funds, Mr. Nuredin Ismaili, representative from the Ministry of Local Self-government, asked if maybe such distribution is influenced by low publicity of IPARD in some regions. Mr. Brajkovski pointed out that the implemented IPARD Programme publicity campaign equally covered all regions of the country, visiting over 200 settlements and disseminating information through info days and workshops. In this respect, Mr. Rutkovskis proposed to the national IPARD authorities to use targeted public calls either per measure or region, if gaps between regions and/or sectors have been identified in IPARD implementation.

Ms. Aleksandra Slavkovska, representative of the Ministry of Social Policy, Demography and Youth, raised the issue with the indicator “number of jobs created” and asked why there is no data on this indicator. Mr. Mladenovski stressed that the

indicator is listed in the Programme for each measure and that the IPARD Agency is obliged to provide data during on-going monitoring or, at the latest, in the Annual Implementation Report for 2024 and the Final Report.

The representative of the National Federation of Farmers, Ms. Vaska Mojsovska, also specified the lack of urban plans in the villages as an obstacle for farmers to apply for IPARD.

The representative of the Economic Chamber of North Macedonia, Ms. Elena Mladenovska Jelenkovikj, pointed out a problem with the expiration of concession agreements for the use of state agricultural land. Those applicants whose concessions are about to expire, due to failure to meet the programme criteria, are restricted from applying for IPARD and appealed to the authorities to consider this problem and extend the concession agreements of interested potential applicants. The Chairperson of the IPARD III Monitoring Committee, Ms. Daniela Irotova Lazareva, responded that the procedure has been facilitated, i.e., amendments have been adopted to the Law on Agricultural Land where lease agreements are extended within 15 days.

Ms. Elena Mladenovska Jelenkovikj, raised an issue on the size of beneficiaries. She stressed the need of advisory assistance to smaller farmers and applicants and asked how the assessment of the size of the companies is made, which body performs this assessment. In this respect, Mr. Brajkovski informed the member that the issue of small farmers' applicants has been tackled long time ago. NEA advisors provide free of charge assistance in preparing the application and collection of documentation. Regarding the assessment of the size of applicants, the Programme supports only micro, small and medium enterprises, as defined by the EU definition for assessment of the size of the enterprises. This definition can be seen by the potential applicants in the public call and the guidelines for applicants.

Regarding this sub-item, the following conclusion was adopted:

**Conclusion No. 4: The IPARD III monitoring committee was informed on the results from the implementation of the IPARD II and IPARD III Programme through data/indicators for monitoring.**

The representative of the IPARD Agency, Mr. Vladimir Hristov, noted that detailed data regarding this sub-item had already been presented in the previous point. The final data will be presented at the next meeting of the Committee.

Regarding this sub-item, the following conclusion was adopted:

**Conclusion No. 5: The IPARD III monitoring committee was informed on realization/finalization of the applications from the IPARD Programme 2014-2020.**

**Sub item 7 (c) of the Agenda: "Report on the results of the public calls 01/2023 and 01/2024 of the IPARD Programme 2021-2027 (ranking process)".**

Mr. Vangel Nanevski presented in details the results of the public calls 01/2023 and 01/2024 of the IPARD Programme 2021-2027.

Due to the large number of applications and the higher requested amount of financial support than the amount announced in the public call 01/2023, ranking of applications was applied in accordance with the selection criteria of the IPARD III Programme. The lack of employees as well as the procedure for determining the reference prices were listed as the reason for the long administrative processing of applications.

Regarding the ranking, he emphasized that attention should be put to the additional criterion, i.e., if a certain number of beneficiaries have the same number of points, priority is given to those who submitted the application first.

Regarding this sub-item, the following conclusion was adopted:

**Conclusion No. 6: The IPARD III monitoring committee was informed on the results of the public calls 01/2023 and 01/2024 of the IPARD Programme 2021-2027 (ranking process).**

Regarding the public call for measure 3, the time period for its publication has not yet been defined, while a new public call for measure 7 cannot be published before September 2025, i.e. until the completion of the approval process of the requests submitted for the call 02/2024.

Verification visit at project level for paid projects, in particular ex post - on the spot checks under IPARD II Programme has been performed. The general conclusion from the verification visit was that the beneficiaries are respecting the sustainability rules of the projects/investments and the investments/supplies are properly used in accordance with the signed Agreements.
