General information about the Programme/measures implementation on the basis of
monitoring indicator tables

Analysis of the implementation by measure:

The implementation of the IPARD Programme 2021-2027 started in September 2023 with the submission of applications to the first public call. Since then, 3 additional public calls have been published, making in total 4 public calls for submission of applications under IPARD III:

- Public call 01/2023 for submitting applications for measure 1 and 7,
- Public call 01/2024 for submitting applications for measure 3,
- Public call 02/2024 for submitting applications for measure 7 and
- Public call 01/2025 for submitting applications for measure 1.

The public call **01/2023** included two measures (1 and 7). The available budget for measure 1 was 18.8 million euros and 11.4 million euros for measure 7. Due to the high interest of applicants, although the budget for the measures is higher than in previous public calls, a ranking procedure had to be applied.

A public call for measure 3 (**01/2024**) was published in April 2024, after reviewing the applications from the last IPARD 2 call for this measure. The budget of this public call reached 14 million euros. Due to the high interest of applicants, although the budget for the measures is higher than in previous public calls, a ranking procedure had to be applied.

On 20th of December 2024, the deadline for submitting applications for the use of funds from measure 7 of the public call **02/2024** expired. The budget of this public call reached 14 million euros.

On 12th of February, a second public call (**01/2025**) was announced for measure 1. The total financial support within this public call is 7.4 million euros (part of the funds remaining from the 2025 financial allocation and the entire 2026 financial allocation). Due to the limited budget of the public call, the priority sectors of fruit growing and horticulture have not been announced. In order to bring the Programme closer to the beneficiaries and present the possibilities for using funds, the IPARD Managing Authority conducted a campaign of information days. During the public call, 30 rural municipalities and settlements were visited.

In October 2025, the IPARD Agency announced the pre-publication of the public calls **02/2025** (Measure 3) and **03/2025** (Measure 7). In accordance with the events reported in the public regarding the existence of suspicions of potential corruption by a high-ranking official within the IPARD Agency, the NAO, based on Article 6 and paragraph 5 of the Decree on the establishment of structures and bodies and determining their mutual relations for indirect management of financial assistance under the Instrument for Pre-Accession Assistance (Official Gazette of the Republic of North Macedonia No. 88/2023), suspended all payments from IPARD funds on 7th of November 2025.

In order to resolve the situation as soon as possible and unblock the implementation of the Programme, specialized verification visits by the NAO and audits by the Audit Authority were carried out in the IPARD Agency. Based on their findings, the IPARD structures have prepared an Action Plan with strict activities to be realized promptly. The implementation of the plan includes, among others, the preparation of the third modification of the IPARD Programme, which the IPARD Managing Authority has already prepared.

IPARD Managing Authority

General information about the Programme/measures implementation on the basis of
monitoring indicator tables

DG AGRI services have submitted observations to the Macedonian authorities on the final report of the ad hoc verification visit due to a potential corruption case by the former Director of the IPARD Agency. In order to find a way that can help DG AGRI services to make a difference in the assessment process of the possible lifting of the interruption of the payment deadline for IPARD, the Macedonian authorities responded to DG AGRI's observations on 6th of March 2026.

In view of these developments, no new contracts or payments have been concluded under the Programme since November 2025.

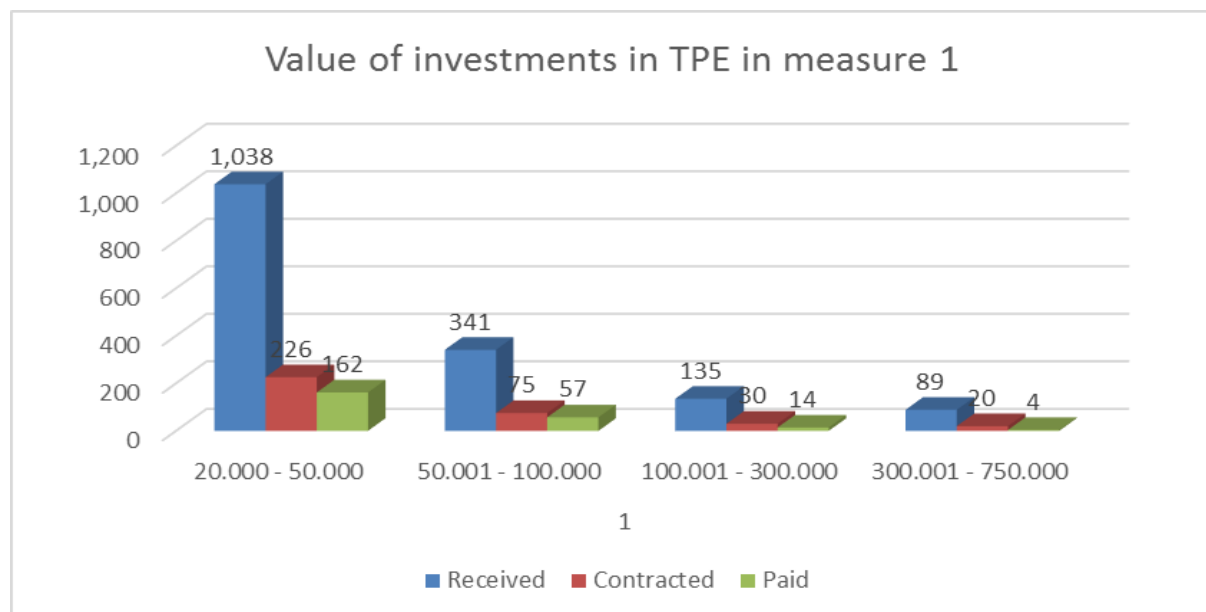

Summary results at the end of 2025 of the 4 public calls for proposals for IPARD 3 published so far:

Public call	Public call budget (EU part)	Applications					
		Submitted		Contracted		Paid	
		No.	EU part	No.	EU part	No.	EU part
01/2023 (M1)	14.175.000	901	38.529.374	357	12.670.217	238	5.685.323
01/2023 (M7)	8.550.000	257	34.709.773	48	7.861.534	22	1.726.254
01/2024	10.510.000	116	24.228.138	37	5.580.287	8	750.311
02/2024	10.500.000	128	18.079.606	12	1.286.193	1	98.329
01/2025	5.561.500	714	36.241.730	0	0	0	0

During 2025, IPARD Managing Authority started the procurement activity for the ex-post evaluation of the IPARD Programme 2014-2020. The procurement has been fully implemented using measure 9 of the IPARD Programme and the economic operator has been paid. The obligation to prepare a final report for the ex-post evaluation of the IPARD Programme 2014-2020 has been fully implemented and the final report for the ex-post evaluation of the IPARD Programme 2014-2020 has been submitted to the European Commission in accordance with the obligations of the Sector Agreement.
